

SEISMIC ACADEMY**Pavia, 29 Ottobre 2015****Almo Collegio Borromeo****Piazza del Collegio Borromeo, 9 - 27100 Pavia****Hilti. Passione. Performance.**

- 9.30** *Welcome coffee & registration*
- 10.30** **Opening**
Hilti, Authorities opening speeches
- 10.50** **Vulnerability and seismic risk in Italy**
Prof. Gian Michele Calvi, IUSS Pavia
- 11.10** **Traditional and innovative techniques in the seismic improvement of R / C buildings**
Prof. Marco Di Prisco, Politecnico di Milano
- 11.50** **Traditional and innovative techniques in the seismic improvement of masonry buildings**
Prof. Beatrice Belletti, Università di Parma
- 12.30** *Lunch*
- 13.30** **Innovation @ Hilti**
Dott. Peter Rupp, Head of BU Installation
- 14.10** **Seismic issues for concrete and prefabricated buildings**
Prof. Roberto Nascimbene, Eucentre
- 14.50** **Performance-based seismic design of nonstructural building components:
the next frontier of earthquake engineering**
Prof. André Filiatrault, Buffalo University
- 15.50** *Coffee break*
- 16.20** **Curtain wall seismic design in multistorey buildings**
Ing. Guido Lori, Permasteelisa S.p.A.
- 17.00** **Guidelines for the mitigation of seismic vulnerability of the fire protection systems**
Prof. Stefano Grimaz, Università di Udine
- 17.40** **Post-seismic passive fire compartmentation: which perspective beyond regulations**
Ing. Antonio Corbo, AFC Milano
- 18.20** **Conclusions**

L'evento è riconosciuto quale attività per l'aggiornamento della competenza professionale con n.6 CFP Crediti Formativi Professionali
